

“COSMOS project Website – current status from users’ point of view”

Hristo Nikolov
SSTRI BAS
hristo@stil.bas.bg

Idea behind the site

- Main idea starting the website was to provide national institutions (governmental, research and educational) and SME's a tool for dealing with Space-related calls;
- Logically main contributors are the local NCP's, but not restricted for them;
- Serve as starting point when preparing for project in Space theme of FP7;
- Develop so called Space Repository (SR) for NCP network;
- Short messaging system for submitting news and events;
- Popularize the results and good practices of the COSMOS project.

What we offer for all visitors of the site

- **Events section** - updated by the editorial team
- **News section** – updated by the editorial team
- **Space info section:**
 - Helpdesk;
 - dedicated place for SME in Space theme;
 - partner search (profiles and ideas),
 - thematic information and useful links in regard to GMES, SSF, ESA activities

WELCOME

On this website COSMOS, the EU funded network of National Contact Points (NCPs) for Space, is providing you its' common service. You will find recent and relevant information and support with regard to Space in FP7.

Read more about [COSMOS](#) and [the Space NCPs](#).

Find Space related [Events](#).

Find [News](#) related with Space and FP7.

In our **FP7 Space infos section** you will find [Space relevant Calls](#) and [Support](#) – including [partner searches](#) - as well as [background information](#) on some topics.

What we offer for registered users of the site

Newsletter – prepared at regular basis by our Swiss colleagues providing information on the Space theme in FP7 and distributed via email. It will continue in the COSMOS+ project.

A screenshot of the COSMOS mailing list subscriber form. The page has a dark blue header with a space-themed background image. The header contains the COSMOS logo, the tagline 'COOPERATION OF SPACE NCPS AS A MEANS TO OPTIMISE SERVICES', and a navigation menu with links: HOME, ABOUT COSMOS, FP7 SPACE INFO, EVENTS, NEWS, INTERNAL PART, DISCLAIMER, SITEMAP, and CONTACT. The main content area is white and titled 'COSMOS MAILING LIST SUBSCRIBER FORM'. It includes a search bar with a 'SEARCH' button. Below the search bar, it says 'To register you have to fill the form below:'. The form consists of three input fields: 'First name', 'Last name', and 'Email'. Below the 'Email' field is a 'Subscribe' button. On the right side of the page, there is a vertical sidebar with several links: 'Enter editorial panel', 'Register for Newsletter', 'Logout', and 'News Feed'. At the bottom of the sidebar is the 'SEVENTH FRAMEWORK PROGRAMME' logo. The footer of the page contains the same navigation menu as the header and a copyright notice: 'Copyright 2009 All Rights Reserved'.

FP7 SPACE INFO > PARTNER SEARCH

Partner search

Introduction

If you want to publish your partner search we recommend you to use [Cordis partner search](#) which is the officially established service funded by the European Commission. Cordis partner search was often criticised. Therefore they worked out a new and smart approach which is now live since beginning of 2010.

We check space relevant new entries and publish them here (see below). To ensure our attention you should enter "COSMOS" as key word in your Cordis entry.

We generally recommend you to carefully select your keywords (use very specific but also more general ones). It is also recommendable not to enter the profile of a whole big institution dealing with all topics. Research group or institute level are much more useful.

Below we sort entries according to profiles (competencies or interest) and project ideas which reflects the Cordis system. If you are interested in finding partners for a particular call / sub topic don't forget to enter the according data (reference number or description) as keyword in your Cordis entry. This will ease finding you and make your entry more attractive for potential partners.

Profiles

[Astos Solutions, DE](#)

SME

Keywords: Mission analysis, optimisation, GNC, Safety&Risk

Entry date: 2010-07-06

[Hovemere Ltd., UK](#)

SME

Keywords: lidar; fabry-perot interferometer; opto-electronic; atmospheric measurements; etalon

Entry date: 2010-06-28

[GomSpace ApS, DK](#)

SME

Keywords: Nano-satellite technology, platforms and applications including cubesat technology

Entry date: 2010-05-12

[Paris-Lodron University Salzburg, AT](#)

Research, Education

Keywords: GIS; remote sensing; human security; vulnerability; mapping; monitoring; water; landscape
